Subject: S/015/062 Pagano Clay - Bond release

I talked with Hank Regulski, ECDC 888-2220, about what was needed to release the Pagano Clay Bond (\$3,700). I told him the reclamation was successful with one minor problem. The problem is the existence of a short road spur and small mound along the north border of the reclaimed area. This is along the private-BLM-State Land border. The mound should be graded out and the road ripped. Hank will check out this area today and possibly attend to this earthwork NOW while their equipment is at the ECDC site. He will send us a letter requesting bond release. It sounds like Hank will be leaving the project sometime soon and he wanted to tie up any loose ends.
